Sister's Spin

December 26, 2020

May the blessings of this holy season be with all of you. There are many beautiful feast days during this season, and the first is today--the feast of St. Stephen. How interesting that the Church celebrates its first martyr on the day after the birth of Our Lord. The word "martyr' means witness and Stephen did what Jesus asks all of us to do--to witness to the Good News of the Lord's birth, life, death and resurrection. Stephen did it by his death and others do it by the way they live. As you celebrate with friends and family these days, may your witness bring joy and peace to all you encounter.
