

# Sister's Spin

February 3, 2021

St. Blaise could be called a saint for our times. He was a bishop, and possibly a doctor also. He is most known for the healing of a small child who had a bone in his throat. This healing took place either while he was in prison or on his way to prison. In these days of the pandemic, it is good to pray to these saints of healing--such as Blaise or St. Luke and ask them to intercede for healing as well as to bless all those who are working so hard in the health care fields.

-Sister Marcianne
