

# Sister's Spin

May 17, 2021

This week, May 16--22, 2021, marks the 6th anniversary of the publication of Pope Francis' encyclical ***Laudato Si!*** This past year has been a total celebration of the encyclical and has called us to look again at what we are doing to save this planet on which God has placed us. During this week, many activities will be taking place to call us to reflect on what we are doing and what we can do to live more in harmony with the planet and its people. .As Educators, which we all are, it is important that we engage ourselves and our students in looking at what is happening on this earth and accepting our responsibility to make it better for those who will come after us. For more information on this week and what it is all about, you can go to [laudatosiweek.org](http://laudatosiweek.org) and there you will find information and also activities--some simple and some more complex-- that you can do, not just this week, but in weeks to come, to assist you and others in changing lifestyle habits that can change the planet.
