

Sister's Spin

September 1, 2020

Today begins the Season of Creation--not the start of autumn or the end of summer, but a time set aside to focus on God's gifts of creation, how we use them and how we can better care for them and praise God for them. In this pandemic time, perhaps one is not thinking so much about the world of creation around us, but it is important to focus on the beauty that God has put into our world. Today would be a good day to reread Chapter One in the Book of Genesis and perhaps to take a few moments to reflect on God's love for us as this world was brought to life by God's hand.-- SM
