

Sister's Spin

December 11, 2020

Saturday is the Feast of Our Lady of Guadalupe and while it is an important feast for most of the Mexican Community, it is also important for the rest of us. This feast commemorates the only appearance of our Lady in the Americas. In this appearance, she chooses a native and not a young person, but older in age than in other of her appearances. And, she appears to be of native origin also, and pregnant, as shown by the black ribbon worn above her waist. In this Advent Season, we are again reminded that Mary brings us Jesus and that Jesus has a concern and love for all of us, from the beginning of time. This weekend, the Church calls us to **REJOICE**, for the Lord is near. It may be good to make a list of the many reasons we have to rejoice as we approach the beautiful feast of Christmas. Having Mary as our Mother is surely one of those reasons.
