

Sister's Spin

December 16, 2020

Today officially begins the Christmas Novena. When I first entered SSND, on this day in the evening, we assembled in the lobby of the main Chapel of the Motherhouse and the chapel doors were then opened to reveal an altar in semi darkness with a multitude of candles lit to dispel that darkness. We processed in with all our sisters and prayed a beautiful novena calling on the Christ to come and save us. Each night the sister in charge of the Chapel changed the positions of the candles and each night, prayers were different, but helped prepare us for the beautiful coming feast. I will begin this novena tonight and all your intentions will be placed before our Lord. As the days become darker earlier and remain darker later each day in the morning, it is good to turn to the Lord of Light who still comes to save us. Blessings on your day!

-Sister Marcianne
