

# Sister's Spin

December 18, 2020

Each morning it seems to be darker longer and longer and each evening, that same darkness creeps in earlier and earlier. As I walk over to Sacred Heart Church each day, that darkness is broken by lights in homes, the beams of radio station signals, street lamps and, if I'm lucky, a little touch of an early morning sunrise. All of this serves to remind me that we are preparing for the one Who comes to dispel the darkness in our lives--the darkness of sin, fear, worry and the list can go on. **Jesus, the Lord of Light, shares the Light with us in joy, peace, and most of all, with His love.**

**Merry Christmas and a Blessed New Year to all!**

-Sister Marcianne
