Jennifer Oetting
Newman Central Catholic High School
1101 West 23rd Street
Sterling, IL 61081

Dear Ms. Oetting,

It is time to kick off the **2020 CGH Summer Scholars Program**. The program will provide local high school students aspiring to become physicians with an opportunity to explore various areas of the health care field and to develop mentoring relationships with professionals at CGH Medical Center.

The program is intended for highly motivated students who have a good academic record and a sincere interest in becoming a physician. Graduating high school seniors may apply. Students accepted into the program will work 4-5 hours per day Monday through Friday for a period of six weeks. During that time they will rotate through areas of medicine and surgery, receive lectures on health care career paths, and complete one project under the guidance of a mentor. Each CGH Summer Scholar will receive a \$1,500 scholarship to support his/her college education. Enclosed with this letter are materials that explain the program and application process in greater detail.

Please distribute the information to eligible students. We look forward to receiving their applications.

If you have any questions about the program, please contact me at CGH Medical Center (815-564-4914) or via email at Kip.Aitken@cghmc.com.

Sincerely,

Kip Aitken
Director of Physician Recruitment
CGH Medical Center

SUMMER SCHOLARS PROGRAM

Why would you consider devoting half of your summer to such a unique and prestigious opportunity?

You'll gain.....

Knowledge

CGH Medical Center, our physicians and staff, know that our community has outstanding students who are devoted to their educational experience. We wish to enhance that experience for those who have a strong desire to consider becoming a physician in the future.

Experience

If you are selected as a CGH Summer Scholar, you have the rare opportunity to immerse yourself into the careers of multiple medical specialists and learn one-on-one alongside them. This experience will challenge you to push yourself towards a career that offers a rewarding opportunity.

Connections

Summer Scholars will maintain connections with their mentors and other CGH physicians and staff beyond the initial summer experience. These relationships will remain important throughout your developing career.

Scholarship

Once you successfully complete the summer program, CGH will provide a \$1,500 scholarship that can be used for the first year of your college education.

IF YOU ARE INTERESTED, PLEASE FOLLOW THE INSTRUCTIONS IN THE ENCLOSED INFORMATION PACKET

SUMMER SCHOLARS APPLICATION

Name: _____

Address: _____

Phone #: _____

Email: _____

High School: _____

GPA: _____

Activities: _____

Community Service: _____

Essay: One page (typed) describing why you want to be a physician.

Recommendation: A recommendation from a current or prior teacher is required in support of your application to the CGH Summer Scholars program.

The recommendation should include an evaluation of your personal characteristics (honesty, reliability, maturity, work ethic) as well as any general comments.

APPLICATION DEADLINE: April 3, 2020

FINALIST INTERVIEWS: April 13-17, 2020

WINNERS ANNOUNCED: April 20, 2020

Please mail all completed application materials to:
Mr. Kip Aitken, CGH Medical Center, 100 East LeFevre Road, Sterling, IL 61081

CGH SUMMER SCHOLARS PROGRAM

Program Description

The purpose of the **CGH Summer Scholars Program** is to provide local high school students who aspire to be physicians with an opportunity to explore the health care field. The opportunity consists of working one-on-one with CGH doctors, attending lectures about careers in the health care field and completing one research project relevant to public health.

Program Goals

1. To educate participants about opportunities in health care as potential careers.
2. To engage the participants in the daily work of health care professionals.
3. To inspire participants to pursue a career in the field of health care.

Students Eligible

Graduating High school seniors

Time Commitment

The program will start at the end of the academic school year and run for 6 weeks.

Schedule

The daily schedule will be 8:00am to noon. Scholars will rotate through an area of medicine each week (Emergency Department including EMS, family medicine/internal medicine, surgery, and subspecialty exposure in both surgery and medicine). During each rotation the scholars will learn about that area of medicine by shadowing a staff doctor. Twice per week scholars will attend a lecture from 12:30 to 1:30pm. The lectures will be relevant to their rotations and potential careers in health care.

At the beginning of the program, scholars will choose one area of particular interest to them and will be assigned a mentor in that area. Working with the mentor, the scholar will determine a topic relevant to public health and research the topic for presentation at the end of the program. For example, if a scholar chooses orthopedics as the area of interest, then the research topic might be osteoporosis and how it affects the surrounding community.

Scholarship

\$1,500 applied to college education

CGH SUMMER SCHOLARS PROGRAM
