

Sister's Spin

January 11, 2021

"We're back to normal--as well as normal can be right now!" How many times have you heard this or even said it yourself these days? Well, there is one place that is really back to normal and that is the Church. The twinkling trees are down and put away for another year, crib scenes with their statues carefully packed away, and maybe a few poinsettias still remaining to remind us that we celebrated a wonderful event--the birth of our Savior. It's Ordinary Time in the Church Year --the green vestments are out again and we listen to the stories of Jesus as he begins his public ministry. But one part of the Christmas Season does not have to go on the shelf, and that is the peace and joy experienced during those family days just past. At get-togethers and through cards sent, we wished each other peace and joy in this new year. Now, it is up to each of us not to make it just a wish, but a reality. So, spread a little peace and joy today--and every day in 2022 !

-Sister Marcianne
