

Sister's Spin

March 25, 2022

Today we celebrate the feast of the Annunciation to Mary that she would be the Mother of God. As important as this feast is, it is not a holy day of obligation--one of those days that call us to celebrate with Mass and in other special ways. Yet this year, this day is very special because we are asked to call upon Mary in her various titles, and again ask her intercession with Jesus for the needs of our world. As a Mother, she stands ready to do whatever is necessary to assist her children.. As we pray with our Holy Father on this day, we remember in a special way that we are her children, given to her on Calvary as her Son hung dying on the cross. Let us honor her Yes to God and know that she will hear and take our prayers to her Son.

This weekend also marks the midpoint of the Lenten Season. It calls us to "Rejoice", for the time of our salvation is near. It is good to pause and celebrate, but to also remember that the journey continues to the hill of Calvary.
