

Sister's Spin

September 26, 2022

Life doesn't slow down at the end of September. Other special events crop us, like Homecoming Week, Spanish Heritage Month and continuing, the Season of Creation. The theme for week 5 is Holy Ground. In Exodus, God says to Moses, : "...Remove your shoes for the place you stand is holy ground..." We, too, walk on holy ground for the earth which God creates and on which we step each day to go about our daily tasks is also Holy Ground. As we walk to our work, return to our homes, shop or drive for business or pleasure, we are on holy ground. Maybe as one walks to the front or back door of our homes, one might pause this week and give thanks for the stability of our place on this earth. Enjoy the holy ground--soft grass or hard cement-- where you are this week and let it help you remember the strong love of God who continues to provide strong, stable love for each of us.

-Sister Marcianne
