

Sister's Spin

October 13, 2022

As this day comes to an end, it has a special meaning for those in the Newman Family. Hopefully this day brought good memories to many people and recalled special moments in the lives of those connected with this school. Just as this day will bring these special memories to many, it also brings a memory of a special event in the life of the Church that happened on this day 105 years ago. This day is called The Day the Sun Danced and refers to a special miracle our Blessed Mother sent to three little children in the small town of Fatima , Portugal. She promised them this miracle so all could believe she had come to our earth once again to ask people to pray and offer sacrifices for the conversion of Russia and the end of war --the 1st World War and for peace. These petitions of our Lady still need to be addressed in our time, and it is through schools like Newman that this is done. As this Day of Giving draws to a close, let us offer our thanks for all who make it possible to have a Catholic High School that promotes prayer and sacrifice to bring peace and conversion to the hearts of many.
