

Sister's Spin

October 26, 2022

October is winding down and it certainly has been a month of many facets. It starts with warmth and sunshine and maybe ends with cold winds and rain. It is a month of beautifully colored trees as well as empty branches reaching up to a gray sky. It is a time of standing for life as well as battling those who still speak of a culture of death. It is a time of election commercials that praise as well as denigrate. For us as Catholics, it is a month to honor Mary as well as great saints from across centuries and continents. Fun is its ending name as children and adults, too, climb out of everyday clothes to assume a new identity for a little while. October calls us to look at all God has to offer and to say **Thank You** as we move to a month that draws us to an awareness of our need to give thanks. So, goodbye, October and welcome November! What surprises will you bring?

-Sister Marcianne
